

ENGINEERING POSITIONS

We are currently looking for graduating seniors with majors in either mechanical or civil engineering to apply for this position.

TITLE, SERIES, AND GRADE: Mechanical Engineer, GS-0830-07, or Civil Engineer, GS-0810-07, with promotion potential to the GS-12 level.

AREA OF CONSIDERATION: All Eligibles

DUTY STATION: Naval Facilities Engineering Command at the Naval Construction Battalion Center, Port Hueneme CA.

DUTIES: Complete tasks and training sufficient to perform progressively more complex assignments such as:

- Provide engineering support to the Naval Construction Force, including the Mobile Construction Battalions, the Amphibious Construction Battalions, and the Naval Beach Groups.
- Perform assigned tasks, which can include developing technical requirements for: the development of unique Navy construction and amphibious equipment, modified commercial products, development and maintenance of engineering drawings and specifications.
- Provide technical assistance for the development of logistics support documentation, such as technical manuals and provisioning.
- Assist military users in troubleshooting post-installation problems, and coordinating the technical support of deployed facilities.
- Perform other assigned tasks, including optimization projects and specialized technical services to ensure efficient life-cycle management of the Sealift and Construction Equipment systems.

QUALIFICATION REQUIREMENTS:

Degree: Professional engineering. To be acceptable, the curriculum must:

(1) Be in a school of engineering with at least one curriculum accredited by the Accreditation Board of Engineering and Technology (**ABET**) as a Professional engineering curriculum; or

(2) Include differential and integral calculus and courses (more advanced than first-year physics and chemistry) in five of the following seven areas of engineering science or physics: (a) statistics, dynamics; (b) strength of materials (stress-strain relationships); (c) fluid mechanics, hydraulics; (d) thermodynamics; (e) civil fields and circuits; (f) nature and properties of materials (relating particle and aggregate structure to properties); and (g) any other comparable area of fundamental engineering science or physics, such as optics, heat transfer, soil mechanics, or electronics.

To qualify at the GS-7 level, applicants must have evidence of one full academic year of graduate level education or possess a grade point average of 3.0 or higher.

STARTING SALARY: GS-7, \$36,615 – 45,066

CLOSING DATE: Open until filled

Application should be by resume and must include a copy of your transcripts. The Port Hueneme, CA area of interest must also be identified.
